FINANCIAL PERFORMANCE FOR THE PERIOD ENDED 31 DECEMBER 2021

OPERATING PERFORMANCE

The nine months period, April to December 2021, saw an overall reduction of 53.1% in net profit. This decrease was as a result of equipment maintenance cost, lower levels of production which impacted sales revenue and the impact of the contractual rate reduction for Wigton Phase II.

The Company continues its efforts to grow the business by investing in new ventures, being ready to respond to any new calls for additional renewable energy to the national grid, establishing partnerships and continuing to prudently manage expenses as the primary focus areas of management.

Production and Availability

Wigton experienced a lower wind regime for the quarter compared to the previous period due to the La Niña phenomenon which has been in effect for the last two (2) years. La Niña has the effect of reducing the pressure differences across the region. This lowered the wind speed experienced and coupled with the lower availability of the turbines, translated into lower production from the wind turbines.

Additionally, the average plant availability rate was approximately 88.9% during the nine months reporting period. This was below the projected target of 94.3% because of wind turbines being out of operation during the period to facilitate major maintenance activities.

These extraordinary factors combined to negatively impact the revenue in the period under review.

Nonetheless, Wigton is playing its part towards the reduction of the impact of climate change and is fostering environmental sustainability. The generation of electricity from its 100% clean energy facility, has resulted in a total of 19,588 tonnes in carbon emissions reductions for Jamaica.

Revenue/Sales

Total revenue during the period was \$1.8 billion representing a \$283.6 million, or 13.7% decrease when compared to the amount earned in the SPLY.

Expenses

Total expenses for the year-to-date period increased by \$30.5 million or 2.1% above the SPLY.

ASSETS, LIABILITIES AND EQUITY				
Description	December 2021	December 2020	Change	
	\$'000	\$'000	(%)	
Non-current Assets	6,754,952.8	7,177,775.1	(5.9)	
Current Assets	4,445,942.4	<u>3,446,959.4</u>	29.0	
Total Assets	11,200,895.2	10,624,734.5	5.4	
Non-current liabilities	6,452,562.0	6,281,758.1	(2.7)	
Current liabilities	452,061.7	321,730.2	(40.5)	
Total liabilities	6,904,623.7	6,603,488.3	(4.6)	
Equity	4,296,271.5	4,021,246.2	6.8	
Total equities and liabilities	11,200,895.2	10,624,734.5	(5.4)	

The 5.9% decrease in non-current assets stems mainly from the depreciation of the Company's fixed assets. Current assets grew by \$999.0 million or 29.0%, mainly due to the continued profitability of the business. The profitable operations have contributed to the growth in the Company's cash and cash equivalents to \$4.1 billion from \$3.2 billion at the 2021 financial year end. That is, by \$0.9 billion or 28.1%. Wigton's continued profitable operation has further strengthened the Company's balance sheet and enhanced its financial flexibility to grow the business from initiatives being pursued.

As a result of the combined net change in current and non-current assets, Wigton closed the third quarter with total assets of \$11.2 billion, an increase of \$576.2 million or 5.4% when compared to the \$10.6 billion in the SPLY.

Total liabilities in the third quarter were \$6.9 billion, an increase of \$301.1 million or 4.6% higher than the SPLY at \$6.6 billion. The change occurred mainly as a result of an increase in deferred tax liability of \$178.9 million, the provision for the special dividend payment of \$200 million which was paid to shareholders on January 17, 2022 and the settling of other obligations in the amount of \$6.9 million.

Shareholders' equity at the end of the period was \$4.3 billion, an increase of \$300 million or 6.8% above the SPLY's equity of \$4.0 billion.

OUTLOOK

Wigton remains aware of the continuing need to examine opportunities for profitable business expansion in line with its objectives for the 2021/2022 financial year and beyond. While focusing on the core business as the anchor, the Company continues to aggressively explore business opportunities in non-traditional areas, both locally and regionally, as it seeks to diversify its revenue base.

Discussions are ongoing with the relevant regulatory authorities around the timing of the next Request for Proposal (RFP) for the addition of new Renewable Energy (RE) generation to the national grid.

Wigton is in the process of verifying and certifying emissions reductions from Wigton Phase I and Wigton Phase II. This verification and certification is expected to result in the resumption of the sale of carbon credits by Wigton.

The Company's designation as the Thematic Hub for wind energy in the region by the Caribbean Centre from Renewable Energy and Energy Efficiency also positions it well for diversification opportunities which are currently being explored.

Wigton will continue its efforts to improve operational efficiencies. To reduce its debt obligations under improved financial terms, Wigton sought and obtained the approval of its Bondholders to restate Bonds B, C and D which is projected to result in net savings of approximately \$648 million over the remaining lifetime of the Bonds.

The Board, Management and Team members continue to work assiduously, to ensure continued profitable outcomes and the sustainability of Wigton's operations.

CORPORATE SOCIAL RESPONSIBILITY

The Company continues to seek ways to positively impact its stakeholders through contributions to social development, primarily in the areas of education, crime prevention, community development and environmental preservation and protection.

1. Identification and Activities

Wigton is incorporated and domiciled in Jamaica. The Company was incorporated on April 12, 2000. It was formerly a wholly owned subsidiary of the Petroleum Corporation of Jamaica. On 22 May 2019, the Company became a publicly listed entity on the Jamaica Stock Exchange's Main Market. The principal activity of the Company is the generation and sale of electricity from wind technology, with its registered office located at 36 Trafalgar Road, Kingston 10, St. Andrew.

Impact of COVID 19

Beginning in January 2020, global financial markets experienced and continue to experience significant volatility resulting from the spread of the novel coronavirus known as COVID-19. The outbreak of COVID-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. In response to this, the Company has implemented several health and safety protocols to protect its employees and stakeholders which it continues to monitor and enforce. COVID-19 has also impacted the lead times for the delivery of spare parts necessary for scheduled maintenance and repairs of the Company's plants. The delays currently being experienced could have negative medium-term effects, due to the inability to carry out preventative maintenance to eliminate component failures and further cascading consequences.

Management continues to closely monitor the situation and adhere to the various government protocols and advice.

2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

These financial statements have been prepared in accordance with and comply with IFRS and have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Although these estimates are based on managements' best knowledge of current events and action, actual results could differ from those estimates.

3. Property, plant and equipment and depreciation

All property, plant and equipment are recorded at cost less accumulated depreciation. Depreciation is calculated on the straight-line basis to write off the cost of each such property, plant and equipment, to its residual value over its estimated useful life as follows:

Plant	20 years
Computers	5 years
Service equipment	20 years
Furniture, fixtures and equipment	10 years
Motor vehicles	5 years
Training lab	20 years

4. Earnings per share

Earnings per share is calculated on net profit and is based on the weighted average number of ordinary shares in issue during the periods.

	Quarter Ended December 2021 \$'000	Quarter Ended December 2020 \$,000
Net profit attributable to ordinary shareholders	277,497	591,651
Weighted average number of ordinary shares in issue	11,000,000,000	11,000,000,000
Basic earnings per share	\$0.025	\$0.054

5. Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise of cash at bank and cash in hand, deposits held at call with banks and investments in money market instruments with original maturities of 90 days or less, net of bank overdraft.

	Quarter Ended December 2021 \$'000	Quarter Ended December 2020 \$'000
Cash at bank and cash in hand	54,035	9,835
Short term deposits	665,373	1,072,428
Deposits	3,326,574	2,080,790
	4,045,982	3,163,053

6. Long Term Liabilities

	Quarter Ended December 2021 \$'000	Quarter Ended December 2020 \$'000
(i) Senior Secured Bonds:		
Series B – Due December 14, 2023	1,953,000	1,953,000
Series C – Due December 14, 2025	1,674,587	1,674,587
Series D – Due December 14, 2028	2,011,000	2,011,000
Unamortised upfront fees on loan	(44,905)	(64,160)
	5,593,682	5,574,427
Add: Interest Payable	21,981	21,921
	5,615,663	5,596,348
Less: Current portion	(21,981)	(21,921)
	5,593,682	5,574,427

In December 2018, the Company launched a private placement of Bonds to raise J\$6,348,586,690.42. The placement was successful and applied to repay in full the loans owing to the PetroCaribe Development Fund. On December 9, 2020, Wigton paid its first Bond, Series A, from its accumulated cash resources.

Wigton sought and obtained the approval of its Bondholders on January 14, 2022 to restate Bonds B, C and D which is projected to result in net savings of approximately \$648 million over the remaining lifetime of the Bonds.
